We also collect non-personal information or data in a form that does not permit direct association with any specific individual. We may collect, use, transfer, and disclose non-personal information including that related to customer activities for any purpose. This information is aggregated and used to understand which parts of our website, products, and services are of most interest to our customers. We may share aggregated, non-personally identifiable information with our partners, affiliated sites, advertisers, and others. Aggregated data is considered non-personal information for the purposes of this Privacy Policy. 5. Cookies and Other Technologies

Corexpand's website, online services, interactive applications, email messages, and advertisements may use "cookies" and other technologies to help us better understand user behavior, tell us which parts of our website people have visited, and facilitate and measure the effectiveness of marketing and web searches. We treat this information as non-personal information unless required otherwise by local law.

Corexpand may also use cookies and other technologies to remember personal information when you use our website and services. Our goal in these cases is to make your experience more convenient and personal.

If you want to disable cookies, then follow the help instructions for your particular computer or check with your provider to find out how to disable cookies. Certain features of the Corexpand website will not be available once cookies are disabled.

As is true of most websites, we gather certain information automatically and store it in log files. This information includes Internet Protocol (IP) addresses, browser type and language, Internet service provider (ISP), referring and exit pages, operating system, date/time stamp, and clickstream data. We use this information to learn about user behavior on the site. Corexpand may use this information in our marketing and advertising services.

In some of our email messages, we may use a “click-through URL” linked to a Corexpand website. When customers click one of these URLs, they pass through a separate web server before arriving at the destination page on our website. This click-through data helps us determine interest in particular topics and measure the effectiveness of our customer communications. If you prefer not to be tracked in this fashion, then please do not click these text or graphic links in the email messages.

Pixel tags enable us to send email messages in a format customers can read, and they tell us whether mail has been opened. We may use this information to reduce or eliminate messages sent to customers.
